These apps are also compatible with Windows, Linux and Mac OS You can no longer search for these apps in the Chrome Web Store as part of Google’s effort in disabling the whole platform.. Register here, and then come join us in Slack Most developers hang out there, so this is a great place to talk about the things you are tinkering with in Betaflight, or get help with really complicated configuration problems.. They can be downloaded from the following locations: Betaflight Configurator Betaflight configurator can be run as a standalone application on Windows, Mac and Linux.. Fortunately the developers have come up with a solution and offer users standalone apps which they can run without Google Chrome.
